HEAT ROADMAP EUROPE 4 (HRE4)

A low-carbon heating and cooling strategy for Europe

- **ADENE** continues to participate in advisory board on behalf of the EnR;
- **ADENE** will also participate on the next meeting in March 15th and on the event “Flagship Research on Modelling for Unlocking the Decarbonizing Potential in Heating and Cooling” in March 16th

The most recently added results are:

- ✓ **Hourly energy system models** for the 14 HRE4 countries
- ✓ **Excel model to calculate the profile of heating and cooling demand in 2015** in the residential, industry and tertiary sectors of the 28 EU member states.
- ✓ **A list of PDF presentations for each one of the 14 HRE4 countries**, with a summary of the results on the country’s final Heating & Cooling demands

In 2018, the most important take-aways will be presented in a series of **14 webinars**.

H2020 projects

- ✓ E-mail sent on 31/10/2017 **signalling possible calls** for the BWG
 - ✓ E-mail sent on 15/02/2018 **asking for possible participants** for a consortium regarding the H2020 call LC-SC3-EE-2-2018-2019: **Integrated home renovation services.**
 - ✓ **Next step:** According to the mapped interest **the BWG will evaluate the possible submission of a proposal**
-
