Studies and Publications

EnR Presidency 2022

EnR 2022 studies/publications

EnR network will produce publications on 5 thematic topics, highlighting the role and potential contribution of EnR members.

Cooperation

AIM | Promote EnR members cooperation initiatives by promoting EU-Africa exchanges, encouraging discussion on multi-level governance models and the access to finance.

EnR'22 Cooperation Directory

▶ A directory of EnR members' cooperation with African countries, showcasing good practices, enabling synergies between existing projects and fostering new partnerships.

▶ The EnR Cooperation Directory will be presented at [aef2022](#) (Brussels, 21-24 June).

Green Jobs

AIM | Contribute to strengthening sustainable competitiveness, as set out in the European Green Deal.

EnR'22 Study **Green Jobs**

- ▶ Study on new green jobs opportunities and challenges, building on the results of the WATTer Skills project, fostering new water-energy nexus skills to strengthen climate transition within the European Skills Agenda.
- ▶ The EnR Green Jobs Study will be discussed at the **EnR TGM 2022** (tbd, October) and presented at the **1st European Youth Energy Network Week** (Lisbon, November).

Energy Communities

AIM | Contribute to reach the targets established in the European Green Deal and implement the Clean Energy Package by promoting renewable energy communities.

EnR'22 Study **Renewable Energy Communities**

- ▶ Study on good practices, focusing on the role of EnR members as enabling agents, proposing solutions to increase investment and dissemination of energy decentralization measures for the different sectors (public administration, industry, services, residential).
- ▶ The study will be available in **November 2022** followed by a public webinar to present main findings to relevant stakeholders.

Energy Poverty

AIM | Contribute to the achievement of the targets established in the European Green Deal and the Renovation Wave by promoting discussion and action towards reducing energy poverty.

EnR'22 Study **Energy Poverty**

- ▶ Study on the contribution of renewables to tackle energy poverty, for an inclusive and fair transition, focusing on possible business models and financing issues and highlighting the role of EnR members as enabling agents.
- ▶ The study will be available in **January 2023** followed by a roundtable to present main findings to the European Commission and relevant stakeholders.

Water-Energy Nexus

AIM | Contribute to reach the targets established in the European Green Deal and to boost an efficient use of resources, through the discussion around the water-energy nexus.

EnR'22 Water-Energy Nexus Survey and Study

Developed within EnR Task Force to create the Water-Energy Nexus WG:

▶ **Water-Energy Consumer Choices Survey**

Consumer survey on willingness to choose products such as taps and showers for water & energy savings, aiming to inform mechanisms such as EU labelling. Presented at the [World Water Week 2022](#) (Stockholm, 23 August – 1 September).

▶ **Water-Energy Financing Study**

Benchmarking study on smart and innovative financing and incentives, fostering combined energy and water efficiency and compliance with the EU Taxonomy Regulation. Discussed at the [EnR M72 Meeting](#) (tbd, February '23) and presented at an [EnR public webinar](#) (February '23).

EnR 2022 studies/publications

Next Steps

- ▶ Share the proposals of Terms of Reference for each study with all EnR members (until Feb 18th)
- ▶ Expression of interest for the Steering Committee of each study (form survey to be answered until Feb 28th)
- ▶ Workshop(s) to present detailed ToR proposal(s), discuss goals and gather contributions, to propose final ToR(s) (until March 11th)
