

# European Energy Network

The voluntary network of European Energy Agencies - at the heart of the clean energy transition

## Name and Country of E<sup>n</sup>R Member

SIEA - Slovakia

### Zelená domácnostiam

Podpora využívania obnoviteľných zdrojov energie v domácnostiach

### Zelená domácnostiam II

Podpora využívania obnoviteľných zdrojov energie v domácnostiach

## Name of Project/Programme & Link to website

NP Green to Households

<https://zelenadomacnostiam.sk/en/>

## Description of Project

Increase of RES share on final energy consumption in Slovakia

The goal of the project is to support and promote the production and distribution of energy produced by RES in households and blocks of flats. SIEA provides vouchers for households and blocks of flats in order to finance the installation of RES – Solar PV, Solar Thermal, Heat pump and Biomass Boiler.

## Aim/Expected Impact of Project

NP Green to Households consists of two phases:

1. Phase – 2015 - 2018
  - Budget: 45 mil – 41,19 refunded
  - 18,500 installations with total installed capacity 141,6 MW (details in attached presentation)
2. Phase – 2019 - 2023
  - Budget was increased to 48 mil. €.
  - So far – 6348 installations – approx. 10 mil. € refunded.
  - Bratislava region excluded – vouchers available only for less developed regions
  - Increase number of small technology equipment of RES by 21.000 pcs and increase installed capacity by 140 MW

## Involvement of the Agency and Link to the EU Green Deal

### Just transition/Renovation Wave

SIEA is the Coordinator and the only implementing body of the project.
