

Behave 2025 : Conference Programme

PROGRAMME OVERVIEW	
	THURSDAY, December 11, 2025
	9:00 – 10:30 Registration & Coffee
	10:30 – 11:15 Plenary Session 1
	11:15 – 11:30 Transition to round 1
	11:30 – 12:45 Round 1 break-out sessions
	12:45 – 14:00 Lunch break
	14:00 – 15:15 Round 2 break-out sessions
	15:15 – 15:45 Transition to Round 3
	15:45 – 17:00 Round 3 break-out sessions
	17:00 – 18:00 Networking & Cocktail
	FRIDAY, December 12, 2025
	08:30-09:30 Registration & Coffee
	09:30-10:30 Plenary Session 2
	10:30-10:45 Transition to round 4
	10:45-12:00 Round 4 break-out sessions
	12:00-13:30 Lunch break
	13:30-14:45 Round 5 break-out sessions
	14:45-15:00 Transition to round 6
	15:00-16:15 Round 6 break-out sessions
	16:15-16:30 Transition to final plenary
	16:30-17:00 Plenary closing

DETAILED PROGRAMME	
THURSDAY, December 11, 2025	
9:00 – 10:30	Registration & Coffee
10:30 – 11:15	Plenary Session 1
- Welcome and Introduction: Sylvain Waserman, Chairman, ADEME - Agency for Ecological Transition, France	
- EnR Presidency: William Walsh, CEO, SEA  - Sustainable Energy Authority of Ireland	
- Keynote speech: Tadhg O'Briain, Deputy Head of Unit, Directorate General for Energy covering Consumers, Local Initiatives and Just transition, European Commission	

11:15 – 11:30	Transition to round 1
11:30 – 12:45	Round 1 break-out sessions

	Contributions of multidisciplinary approaches to behaviour and social practices	Energy poverty and vulnerable consumers	Challenges and ownership by stakeholders	Stakeholder and public acceptability and ownership of low-carbon projects and technologies	Infrastructures, enabling conditions, social dynamics and collective practices favoring sufficiency	Empowering SMEs on the Road to Net Zero: Barriers, Enablers, and the Role of Business Associations
Authors	Johanne Trotin, Patricia Crifo, Wael Bousselmi	Anne Kantel, Sabine Preuß, Iska Brunzema, Hannah Janßen	Natalia Romero Herrera, Marith Huisman, Razieh Torki	Maksymilian Bielecki, Anna Kowalska-Pyzalska, Ewa Neska	Melanie Klösters, Luise Schlindwein, Mathijs Bodelier, Pepijn van Empelen	Rebecca van Leeuwen
Title	Closing the Green Gap with social comparison nudge ? A lab-in-the-field experiment on energy conservation	Systemic discrimination and housing (in)equality: A mix-method analysis in four European countries	Guidelines for just participation in energy social housing renovations	Understanding The Factorial Structure of Attitudes Towards Renewable Energy Community Configurations	Sustainable video streaming: Investigating sufficient use practices among Dutch citizens	Supporting SMEs in the Energy Transition: Insights from European Business Associations
Authors	Robert Goedegebure, Lieke Nijdam, Xiao Peng	Christian Pfeiffer, Stefanie Hatzl, Mona Magloth, Patricia Jasek	Joy Clancy, Marielle Feenstra, Nthabi Mholakoana, and Aretina Stefani	Melanie Mbah, Ryan Kelly	Sahar Mirzaie, Hossein Radmard	Charles Buttigieg
Title	Smart systems and household energy behaviour: A systematic literature review using the motivation, opportunity, & ability framework	A typology of marginalized energy transition target groups through the lens of intersectionality	Enabling socially just energy communities	Co-Transforming Regional Energy Landscapes – The Spatial-Narrative Turn in Participatory Energy Governance	Neighbourhood Patterns in Home Retrofit Uptake: Evidence of Spatial Clustering in Scotland's Energy Performance Data	Experiences from a National Energy Agency
Authors	Marina Topouzi, Hannah Budnitz, Ellen Zapata-Webborn, Emilie Vrain	Xiao Peng, Diana Perra	Marta Lopes, Raquel Miranda, Ana Soares, Carlos Henggeler Antunes	Shane Timmons	Charlie John Walker Clarke, Dr. Elliot J Sharpe, Thijs Bouman	Yvan Deloche
Title	Flexibility in the Domestic Energy Sector: Insights from Hybrid Working Patterns	Bridging Individual and Social Identity Gaps: A Three-Level Identity Work Framework for Energy Transition	From energy efficiency to (self-)sufficiency in agriculture: A systemic approach	What matters for heat pump adoption? Results from diagnostic surveys	From Perception to Participation: How Intergroup Dynamics Drive Local Energy Collaboration	Experiences from Innovation Clusters & Centres in France
Authors	Marije van Gent, M. Onwezen, M. Morren, R.J. Renes	Nina Tom, Batoul Mesdaghi, Carmen de Vreede, Jaara Bijvoet, Caroline van Ooij		Devon Wemyss, Nina Boogen, Selin Yilmaz, Guillermo Borragn Pedraz, Arnab Chatterjee, Philipp Heer, Youssa Sidqi, Tania Lopez	Hannah Budnitz, Labib Azzouz, Martin Pullinger, Tina Fawcett, Jessica Few	Declan Meally, Emma Mooney, Rod Janssen
Title	The double-edged nature of ambivalence: evidence from a field experiment on car use among Dutch car owners	Understanding energy poverty: the lived experiences and policy preferences of affected households in the Netherlands		Not All Flexibility Is Equal: Empirical evidence how context and technology shape acceptability of household flexibility provision	Domestic EV Charging and Energy Technology Co-Adoption	Round table - Energy efficiency in European SMEs: barriers, enablers, and new roles for multipliers

## Behave 2025 : Conference Programme

12:45 – 14:00	Lunch break						
14:00 – 15:15	Round 2 break-out sessions						
	Choice and impact of public policies	Initiatives led by civil society groups, community involvement	Acceptability and ownership of public policies by stakeholders and the public	Norms, standards and strategies in determining decarbonisation decisions in businesses	Integrating social science knowledge into energy and material modelling for the development of ecological policies	Engaging Vulnerable Consumers Through Trust-Based Approaches to Tackle Energy Poverty	Energy transition at the local level
Authors	Alain Grignon, Jay A. Olson	Nele Renders, Guillermo Borragán Pedraz, Adrianna Threpsiadi, Erika Meynaerts	Luise Schlindwein, Melanie Klösters, Anika Batenburg, Elliot Sharpe, Thijs Bouman	Maike Gossen, Lisa Walsleben, Laura Niessen-Wade, Laura Beyeler	Mariësse van Sluisveld, Laura Scherer, Nicole van den Berg, Stephanie Cap, Agnese Fuortes, Lynn de Jager, Ryu Koide, Arjan de Koning, Giacomo Marangoni, Francesca Rubiconto, Anne van Valkengoed	Rene Schellekens	Patrícia Corigo, António Batalha, Paulo Santos, Rita sargento
Title	From Wonder to Decision: Using Behavioural Science as a cost-effective tool for Policy.	The Energy Behaviour Forum	The Interplay of Fear Appeals and Policy Framing in Shaping Climate Policy Support	Economics of sufficiency: A mixed methods study on sufficiency-oriented strategies in business	Lifestyle change modelling for climate change mitigation: complementary strengths, policy support, and research avenues	The Lend Trust Model	The "Espaços Energia / Energy Spaces" Initiative: Fostering Behavioural Change and Energy Efficiency at the Local Level in Portugal
Authors	Gaëtan Piegay, Laetitia Pfeffer	Marta Tramezzani	Leandra Scharnhorst, Emilie Vrain, Max Kleinebrahm, Wolf Fichter	Frédéric Bougrain	Mart van der Kam, Maria Lagomarsino, David Parra, Ulf Hahnel	Kerstin Schilcher	Kerstin Schilcher, Altan Sahin
Title	Power of cities to act for cycle logistics	Between Optimizarion and Self-Limitation: Social Practices and the Politics of Urban Energy Communities	Public acceptability of digital personal carbon trading: a technology acceptance perspective from UK households	Main lessons from energy performance contracting projects	A socio-technical model coupling to identify transition pathways and policies towards self-sufficiency prosumers	Building Trust, Enabling Renovation: Reaching Vulnerable Households	FAIRlagern – Transforming Mobility through Situational Behavioural Interventions in Rural Communities
Authors	Meriem Hamdi-Cherif, Elma Hadzic, Yamina Saheb	Anne Kesselring, Renan Magalhaes, Federico Narracci, Anne Kantel, Hellen Dawo, and Vladimíra Mašindová	Leonie Wagner, Daniel Sloot, Wolf Fichtner	Emma Martens, Peter Conradie, Koen Ponnet	Theresa Liegl, Merla Kubli	Lory Barile	Herbert Tretter, Louise Meister, Barbara Alexander-Bittner
Title	Sufficiency and Universal Basic Needs in Low-Carbon Transitions: What Structural Changes and Macroeconomic Impacts?	Stakeholder complexity in energy community projects: Insights from co-creation workshops across four EU countries	The role of electric vehicle ownership and earmarking for the acceptability of charging infrastructure projects in France and Germany	Building a sustainable future: Predicting innovation capability in SMEs in the construction sector through company-level and individual factors	Translating and Operationalizing the Stage Model of Self-Regulated Behaviour Change for Renewable Technology Adoption: A systems thinking and modelling perspective	Building Trust Together: Using Participatory Research to Tackle Fuel Poverty	Reducing Barriers to Heat Pump Uptake: A Cost and Choice Comparison Tool
Authors	Karine Sage, Thomas Delahais, M.Sarnin, M.Tevini, A.Rocci, S.Pineau, T.Griessinger and J.Hemmerlin			Jesse Wise, Aloysius Wong			Alice Rayner, Eveline Vouillemin
Title	Breaking Barriers: Rethinking Policy Instruments for Voluntary Climate-Friendly Behavioural Change			Could Voluntary Adoption of Workplace Travel Plans Lead to Tipping Points in Transport Decarbonisation?			Electric vehicle smart charging: consumer behaviours and message development
15:15 – 15:45	Transition to Round 3						
15:45 – 17:00	Round 3 break-out sessions						
	Economics of behavioural interventions	Choice and impact of public policies	Initiatives led by civil society groups, community involvement	Instruments used by public authorities to promote and develop sufficiency practices at different territorial levels	The role of scenarios and foresight exercises for carbon neutrality	Ecological transition at the local level	
Authors	Ioulia Ossokina, Vincent Roberdel, Theo Arentze, Vladimir Karamychev, Jos van Ommeren	Anastasia Tsougka, Zuzanna Warso	Ann-Sophie Kall, Dr Sea Rotmann, Kira Ashby	Pauline Bucciarelli	Britt Stikvoort, Denise Uwamariya, Cajs Bartusch, Vera van Zoest	Marie Hervier Collas	
Title	Welfare and behavioural effects of energy transition in homes: Impact assessment using 2 million individual linked data of Dutch households	From innovation to overshoot: How data centre expansion risks derailing climate goals	Mapping Unintended Consequences in Energy Transition: Beyond Good Intentions and Towards Just Outcomes	Toward eco-sufficientarianism: merging distributive justice and ecological boundaries	Minimum viable energy - Perceived minimum electricity needs in energy crisis scenarios	Presenting the methodological guide "Giving impetus to a sufficiency policy in your area"	
Authors	Ana Cardoso, Paulo Calau, Vanessa Faia	Anna Konzatti, Gesche Huebner	Kira Ashby, Sea Rotmann, Ann-Sofie Kall, Camilla Andersson, Laney Sullivan, and Athalia Esty	Francesca Cellina, Leonardo Ventimiglia, Linda Soma, Pasquale Granato, Mattia Toscanelli, Elena Marchiori	Erika Mata, Joel Wanemark, Sara Johansson and Ida Karlsson	Altan Sahin, Kerstin Schilcher	
Title	Resource efficiency audits: methodology development and application to pilots	Global Patterns of Behavioural Adaptation to the Energy Crisis: Evidence from Eight European Countries	Elevating Indigenous Voices in the Just Energy Transition	Towards sufficient holidays: Promoting closer destinations and travelling on the ground via an app-based artificial intelligence tool	Material choices and lifestyle shifts for a low-carbon Swedish building sector	Operationalising the Energy Efficiency First Principle through Local Campaigns: Insights from SaveEnergyTogether	
Authors	Pia Drechsel, Alexander H. Kracklauer, Klaus Menrad, Thomas Decker	Ioannis Papagiannopoulos, Eleni Kanellou, Efsthios Sarantinopoulos, Vaggelis Marinakis	Ladislav N. Krutisch, Queena K. Qian, Erwin Mecnik, Henk J. Visscher	Sabine Preuß, Hannah Janßen, Elisabeth Dütschke	Hugo Vacus	Ana Margarida Vales	
Title	Trade-offs in Sustainable Food Consumption: Insights from a choice-based conjoint experiment on eco-attributes in apple purchase decisions	Addressing energy poverty for persons with disabilities: a policy tracking tool for inclusive transition in Mediterranean countries	Unravelling Behavioural Complexities in Dutch Homeowner Associations: A Systems Approach to Energy-Efficient Renovations	Sufficiency policies in the Global South: What predicts support for a public transport subsidy in Mumbai and Delhi?	From energy sufficiency to material sufficiency: interdependencies, inertias, and organizational challenges in planning energy transition with raw materials policies	Citizen support services for the low-carbon energy transition: a social practice approach	
Authors			Tasniva Rahman Mumu, Andrew D. Peacock	Marie Bruguët			
Title			Empowering Communities through Participation: Collaborative Visioning and Literacy Building in Energy Communities	When Words Save Watts: Government Communication and Household Electricity Use			

# Behave 2025 : Conference Programme

FRIDAY, December 12, 2025								
08:30-09:30		Registration & Coffee						
09:30-10:30		Plenary Session 2						
		- Keynote speech: Emma Mooney, Energy Analyst in the Energy Efficiency Division (EEfD), International Energy Agency - Keynote speech: Dr. Yamina Saheb, researcher at Sciences Po Paris, lead author IPCC report						
10:30-10:45		Transition to round 4						
10:45-12:00		Round 4 break-out sessions						
		Contributions of multidisciplinary approaches to behaviour and social practices	Energy poverty and vulnerable consumers	Public participation in the development of energy and environmental policies	Infrastructures, enabling conditions, social dynamics and collective practices favoring sufficiency	How can the behavioural sciences help policy makers to access more end-use flexibility? A special EnR/Users TCP session.	Just transition / Public participation & community involvement	
Authors		Simón Ladino Cano, Maria Hecher, Matthias Heinrich, Claudia R. Binder	Lisa Diamond, Helena Strömberg, Selin Yilmaz, Giulia Garzon	Benoist du Creist, Samuel Thiron, Fiona Ottaviani, Maria Joana Queiroz, Isabel Sousa, Helder Guerreiro, Félicien Pagnon, Joao Casqueira Cardoso	George Warren, Gesche Huebner	Regina Hemm, Viktoria Illyés, Hu Bin, Ivan Mariuzzo, Tara Esterl	Lucy Kinnear	
Title		What Drives Energy-Efficient Renovations? Exploring the Uptake of Thermal Insulation Among Austrian Homeowners	Flexibility for All? Unpacking Readiness and Equity in Demand Side Management	Reinventing our lifestyles. From awareness to collective action - experimenting with new indicators for diverse and fair sufficiency-efficiency-decarbonation trajectories and for the well-being of all.	The relationship between energy equity and sufficiency: Initial expert perspectives	Evaluating flexibility potential of heat pumps and electric vehicles given behavioural factors: results from a study commissioned by the Users TCP and 4E TCP	Is it the taking part that counts? Exploring the dynamics of community participation in the energy transition	
Authors		Mariëlle Rietkerk, Gardien de Vries, Emile Chappin	Ute Dubois, Adèle Sébert	Bei Wang, Dujuan Yang, Qi Han	Sonia Veyssière-Matino	Nicole de Koning	Barbara Nicoloso	
Title		Unraveling the hassle factor as a psychological barrier to demand flexibility for Dutch households through survey-based research	Exposing 'energy injustice gaps': the case of young adults in Paris.	Uncovering residential gas consumption archetypes: machine learning-based household segmentation using Woon 2018	Mapping the Reuse Potential of Vacant and Under-occupied Buildings for Housing: insights from the project TRIOMPH	The Potential for flexibility from a consumer perspective – insights from a Dutch Field Study	How to make the ecological transition of buildings a just and more inclusive transition?	
Authors		Dimitri Naczaj, Eric Bonetto	Arianne van der Wal	Mariagiovanna Gaglione, Antonio Disi	Jan Verheyen, Erika Meynaerts, Nele Renders	Ondřej Kacha, Jesper Akesson	Yulim Choi	
Title		Changing behaviour in smartphone postal collection: comparing barrier reduction and commitment strategy in a field experiment.	Characteristics of Effective Energy Coaching as Policy Measures to Alleviate Energy Poverty-Related Aspects	Healthy Home: Promoting Home retrofitting for older adults' Well-being and improving climate resilience	Energy saving potential via sufficiency measures in residential buildings in Europe	Encouraging residential demand flexibility: Results from large scale field experiments in Canada, The Netherlands and the UK, undertaken through the Users TCP Behavioural Insights Platform.	Energy Transition in the New Era : Renewable Energy-centered Policies under the new Government of Korea	
Authors		Yekatherina Bobrova, Bryony Parrish, Tina Fawcett and Marina Topouzi	Peter Conradie, Sofie Naeyaert, Elliot Sharpe, Lieven De Marez		Victor Mannoni, Adèle Cherigny, Rémy Doudard, André Mounier, Louis-Gaëtan Giraudet			
Title		Energy Waste Triad: conceptual framework and literature review	Motivation vs. Means: The influence of financial capability on homeowners' insulation decisions		The impact of sufficiency in the French residential sector on investments for energy transition			
12:00 – 13:30		Lunch break						
13:30-14:45		Round 5 break-out sessions						
		Behavioural solutions in companies	Public participation in the development of energy and environmental policies	Acceptability and ownership of public policies by stakeholders and the public	Contribution of sufficiency practices to the transition	Integrating social science knowledge into energy and material modelling for the development of ecological policies	Behaviour Change in Action – some innovative examples to inspire policy makers	Engaging People and Policies: Behavioural and Participatory examples to Energy Transition
Authors		Sara Renström, Cajsa Bartsusch	Maïke Keil, Regina Gimpel, Katrin Arning	Adrien Chanteloup, Lea Diestelmeier, Goda Perlaviciute	Jérémy Bouillet	Saeed Abkari, Dr. Dujuan Yang, Dr. Qi Han	Alice Rainer	Louise Meister, Altan Sahin
Title		Sunny, Flexible or Fast? Flexible Charging of Electric Vehicles in Public	Do I Wanna Know? Predicting Information-Seeking and Avoidance Behaviour in the Context of Sustainable Fuels	"With or without you": Resistance and support from high-level energy stakeholders regarding citizen participation in energy sufficiency strategies in France and the Netherlands	Why Accept Limits? Exploring Perceptions of What is Just and What is Enough through French Households' Modes of Consumption	Conceptualizing energy efficiency adoption of homeowners: a theoretical ABM framework incorporating uncertainty	Highlights from the EnR Best Practices Catalogue	Guiding Municipalities Through Participatory Processes: A Framework for Participation in Climate-Resilient Transformation
Authors		Evelyn Lobsiger-Kägi, Uros Tomic, Sebastiano Maltese	Marjan Nikoloski, Wouter J. W. Botzen; Sanchayan Banerjee; Julia Blasch; Marta Talevi	Ciarán Lavin, Dr Hannah Julienne	Kilian Rouge, Franck Lecocq, Julien Lefèvre	Ola Ellassal, Jan Abrell, Hannes Weigt	Emilie Spiesser	Roberto CECCHINI, Anna Amato, Ilaria Bertini
Title		Rethinking work for a sustainable future: development of a scenario-based assessment tool of emerging working models and their energy and CO <sub>2</sub> impacts in Swiss companies CO <sub>2</sub> Impacts in Swiss Companies	Do Behavioural Biases Influence Household Investment in Energy Efficiency? Insights from a Four-Stage Discrete Choice Analysis	When are the co-benefits enough? An experimental study of support for sufficiency policies in Ireland	Quality over Quantity: Investigating the macroeconomic impacts of quality-oriented consumption as a sufficiency lever	Policy Impacts on Heating System Adoption in Switzerland: Integrating individual behavior into an Agent-Based Model	Dare to change "Osez changer"	Exploring Energy Efficiency perception: findings from 2025 Italian Survey
Authors		Simon Paul Borg, Charles Buttigieg, Michaela Xuereb, Colette Konietzky, Jamie Borg	Glenn McNamara, Margaret Samahita, Leonhard Lades	Leon Rieger, Matthias Kowald, Kirstin Zimmer	Nico Benoist, Danique Bredenoort, Reint Jan Renes	Vincent D'Herbemont, Benoît Chêze, Pauline Bucciarelli, Emmanuel Hache, Louis-Marie Malbec, Candice Roche, Benjamin Trouvé	Mariagiovanna Gaglione	Stefanie Horian, Queena K. Qian; Joris. S. C. M. Hoekstra; Henk Visscher
Title		Assessing Sustainability and Behavioural Trends in the Maltese 4- and 5-star Hospitality Sector	Who is Most Influenced By Sludge? Experimental Evidence	Incentivizing sustainable air travel: understanding passenger acceptance of behavioural instruments in aviation	Reframing sufficiency: The role of co-benefits and the affluent in accelerating sustainable consumption	Sufficiency and collaborative foresight for a just and secure hydrogen transition: integrating social preferences into energy system modelling	Gigawatt – an engaging, interactive unique tv programme	From Plans to Paralysis: What Holds Back Energy Efficient Renovation in Social Housing?
Authors		Bob van Rugge, Marta Talevi, Leonhard Lades			Corinne Moser, Vincent Huber, Nina Imboden, Anita Knezevic, Leandra Ruffner, Jennifer Schraner, Julia Kammer and Matthias Hudecek		Renee Kooger	
Title		Reducing Sludge for Residential Retrofitting			Sustainability transformation potentials of non-urban mobility in Switzerland: Perspectives from residents in non-urban areas		From more understanding to more installed heat pumps	

## Behave 2025 : Conference Programme

14:45-15:00	Transition to round 6					
15:00-16:15	Round 6 break-out sessions					
	Contributions of multidisciplinary approaches to behaviour and social practices	Energy poverty and vulnerable consumers	Stakeholder and public acceptability and ownership of low-carbon projects and technologies	Instruments used by public authorities to promote and develop sufficiency practices at different territorial levels	The role of scenarios and foresight exercises for carbon neutrality	Energy Efficiency Journal : Special Issue call for papers - how to submit a paper?
Authors	Sabine Anatolitis-Pelka, Anne Kesselring, Sabine Preuß, Douglas Böhm	Elma Hadzic, Aude Pommeret, Yamina Saheb	Cajsa Bartusch, Britt Stikvoort, Arvid Nyman, Anders Nilsson	Johannes Thema, Alexander Kling, Kaya Dünzen, Frauke Wiese, Carina Zell-Ziegler, Jonas Lage	Felicitas Ortlieb	Editors: Lisa Ryan, Lory Barile, Marta Lopes, Sea Rotmann
Title	Willing-to-share what? Data sharing and energy efficiency behavior –empirical evidence based on the privacy calculus model	Is there a sufficiency effect ? Energy Poverty as a mirror in the French Context	A study on consumer acceptance of direct load control - a load off one's mind?	Beyond technology and energy supply. Conceptualising a toolbox for including sufficiency measures in scenario projections	The importance of including societal change in energy system modelling	This session offers a unique opportunity for BEHAVE 2025 participants to understand how their conference contribution can be developed into a full journal article. It will guide prospective authors through the key steps of the submission and review process, explain how selected BEHAVE presentations can progress toward publication in the special issue, and provide practical advice on structure, formatting, and responding to reviewers.  Whether you are researchers, practitioners, or policymakers, this session provides clear, hands-on guidance to help you navigate the publication process and enhance the visibility and impact of your work through peer-reviewed dissemination.
Authors	Stefanie Haltz, Eva Fleiß, Oleksii Kashtalian	Aaron Bartsch, Caroline Nwafor	Fouad El Gohary, Britt Stikvoort	Frauke Wiese, Carina Zell-Ziegler, Johannes Thema, Jonas Lage, Alexander Kling, Mareike Andert	Simon Gauthier, Bianka Shoai-Tehrani, Alvaro Durante, Pascal Da Costa, Yamina Saheb	
Title	Willingness to share energy data	Low-Threshold Energy Consultations and Appliance Replacement for Vulnerable Households: Insights from an Austrian Support Scheme	Public Acceptance of Building Decarbonization Measures - A Systematic Literature Review	Crisis-proof, socially and environmentally compatible - Impulses for the development of a sufficiency strategy for Germany	Quantitative representation of lifestyles: a systematic literature review	
Authors	Na Li, Lisa Ryan, and Joseph Wheatley	Thomas Schuurman Hess, Arianne van der Wal	Ian Rowlands, Bibiana Egbunike, Sukhmani Sadiora, Trevor Vert, Yakun Zhou	Eva-Maria Schomakers, Mona Frank, Martina Ziefle	Meriem Hamdi-Cherif, Jin Wang, Nicolas Taillard	
Title	Decoding household preferences for behind-the-meter home energy transition over time based on interpretable machine learning	Shifting the gaze: An assessment of children experiencing energy poverty in the Netherlands	Community Acceptance and Rejection of Sustainable Energy Infrastructure Projects in the Province of Ontario, Canada: Insights from Macro- and Micro-Investigations	Walking a tightrope: Acceptance and preferences for communicating self-restraint and sufficiency	Macroeconomic impacts of a sufficiency scenario for the EU: the CLEVER scenario	
Authors	Hector Steenbergen-Cockerton, Alexander Los	Dr Sea Rotmann, Kira Ashby, Ann-Sofie Kall, Laney Sullivan	Jonas Krauss, Klaus Menrad, Thomas Decker		Khushi, Dr Iina Ikonen, Prof Brian Squire	
Title	Beyond Technical Solutions: Integrating Social Data to Reduce Inequality in Urban Energy Interventions	Hidden Energy Users: Who Are They And Why Are They Hidden?	Consumer acceptance of innovative resource-efficient Mycelium-Bound Composites		Nudging Sustainable Engagement in Businesses: The Role of Cultural Values	
16:15-16:30	Transition to final plenary					
16:30-17:00	Plenary closing					
- Philippe Masset, Director, European and International Affaires Directorate, ADEME - Solange Martin, Sociologist and Advisor, Executive Directorate of Forecast and Research, ADEME
